WeBuyCars Service Plan

Plan Description

Every car needs a service at least once a year, but most drivers don't budget for it until the bill arrives. A WeBuyCars Service Plan covers the manufacturer-specified parts, labour and oil for your car's scheduled services. By adding it when you buy your car, your servicing is taken care of upfront, so you don't have to worry about it later.

Want even more peace of mind? Top up your cover with a **WeBuyCars Wear & Tear Service Plan** for the items that wear out over time, such as brake pads, batteries and wiper blades, depending on the option you choose.

These plans don't cover every eventuality, so it's important to understand what cover is provided under the plan you select. This is a summary of the service plan benefits, terms and conditions. The full plan wording will be provided to you should you wish to purchase a service plan for your car.

What Does the Service Plan Cover?

You are covered for specified service intervals as per your car Manufacturer's service schedule. The start and end kilometres determine the set number of service intervals you are covered for and will not exceed the cover period. Should you service your car annually only the set number of service intervals chosen by you will be covered by your plan.
